Annals of Communications in Mathematics

Volume 9, Number 3 (2026)

Table of Contents

Articles

1. Analysis of A Host-vector Disease Model with A Fixed-moments Pulse Interventions
Boureima Ouedraogo and Ali Traore*
Annals of Communications in Mathematics 2026, 9 (3), 1

2. Ideal Structures in Leras Topological Spaces
I. Rajasekaran* and R. Jeni Siyoni
Annals of Communications in Mathematics 2026, 9 (3), 2

3. Boolean-Centred Negation and Involutive Envelopes in *B*-Algebras
Naveen Kumar Kakumanu*, B. Tharuni, S. S. Raju and Noorbasha Rafi
Annals of Communications in Mathematics 2026, 9 (3), 3

4. On Ideal Leras Generalized Closed Sets in Ideal Leras Topological Spaces
I. Rajasekaran* and A. Ahamed Habeba
Annals of Communications in Mathematics 2026, 9 (3), 4

5. On 2-movable Total Domination in the Join and Corona of Graphs
Ariel C. Pedrano* and Rolando N. Paluga
Annals of Communications in Mathematics 2026, 9 (3), 5

6. Outer-connected convex Roman domination in graphs
Leomarich F. Casinillo
Annals of Communications in Mathematics 2026, 9 (3), 6

7. On2-Movable Connected Domination of Some Graphs
Grachelle M. Bangcal and Ariel C. Pedrano*
Annals of Communications in Mathematics 2026, 9 (3), 7

8. Generalization of an Inequality by Laforgia and Natalini
Kwara Nantomah
Annals of Communications in Mathematics 2026, 9 (3), 8

9. Time-dependent Axial Fluid Flow in an Annulus: A Semi-Analytical Approach
Jibrin Danjuma Yahaya*, Bamidele David Michael, Abraham Ayegba Alfa, Isaac Adaji, Aminu Ibrahim, Raji Muhammed and Agbata Benedict Celestine
Annals of Communications in Mathematics 2026, 9 (3), 9

10. A Modified Hill Cipher Cryptosystem Using Columnar Transposition for end-to-end Communication
Mohammed Ibrahim Anyass*, Mohammed Muniru Iddrisu and Peter Awon-natemi Agbedemnab
Annals of Communications in Mathematics 2026, 9 (3), 10

11. On Bipolar Complex Intuitionistic Fuzzy Multi-Polygroups
A.I. Isah, P. Ayuba, N. Mubarak* and P.A. Ejegwa
Annals of Communications in Mathematics 2026, 9 (3), 11

12. A note on JNB-algebras
Daniel A. Romano
Annals of Communications in Mathematics 2026, 9 (3), 12

13. On topological characterizations of rough automata and their primary decomposition
Shambhu Sharan*, Nitish Kumar and Rakesh Kumar
Annals of Communications in Mathematics 2026, 9 (3), 13

14. The Exponentiated Cosine Gompertz Distribution: Properties, Estimation, and Applications to Lifetime Data
Sule Omeiza Bashiru*, Ibrahim Ali and Alhaji Modu Isa
Annals of Communications in Mathematics 2026, 9 (3), 14

15. Sectional Semi-B-Near lattices: A Hierarchy, Filters, and Congruences
B. Tharuni, Naveen Kumar Kakumanu*, S. S. Raju, Y. Ravi Babu and G Laxmi Prasanna
Annals of Communications in Mathematics 2026, 9 (3), 15
